Bones and Teeth
Milk is a major source of **calcium** and body building protein, encouraging strong healthy teeth and bones.

Cells
The **riboflavin** and **niacin** in milk help produce energy, whilst **phosphorus** stimulates cell growth.

Red Blood Cells
Vitamin B-12 found in milk helps build cells that aid in fuelling the body.

Skin
The **vitamin A** in milk maintains the skin's outer layer. The **potassium** regulates the skin's moisture.

Muscles, Hair and Nails
Protein in milk helps produce lean muscles, healthy hair and strong nails.

Figures are based on a serving of 189ml semi-skimmed milk. Source: Dairy Council, Food Standards Agency, IGD. RDA's for an average child aged 5-10 years. Please note RDA's should be used as a guide only, and individual circumstances should always be considered first.

	Energy (kcal)	Protein (g)	Carbohydrate (g)	Calcium (mg)	Fat (g)

How to Register

Under 5 Years

If your child is under 5 years of age they are entitled to a daily 189ml serving of milk free of charge*.

5-11 Years

If your child is aged 5-11 years, and in primary education, they are entitled a daily 189ml serving of milk at the subsidised price from as little as 19p per day**.

It's as easy as...

1. Register on our website, automated telephone line, or using the form overleaf.
2. If your child is **eligible** for free milk it will start with our next order to the dairy. Free milk will stop the Friday prior to your child's fifth birthday. You will be sent an invoice approximately two weeks prior to this date should you wish to continue with the milk.
3. If your child is **not eligible** for free milk we will send an invoice to the correspondence address included in your registration. You will then need to make a payment. Please do not include payment with this registration.

The quickest and easiest way to register is on our website at www.coolmilk.com
