

# CHESTNUTS NEWSLETTER

Friday 19th April 2024

## Maths

This week we have finished our mass and capacity unit. We have started our new unit 'multiplication and division'. Our focus this week has been counting in 2's.

## English

We have started our poetry unit, all about animals. This week we have been reading acrostic poems and learning about its features. We researched facts about our animals and then made these into full sentences using capital letters and full stops.

## R.E

We have recapped our learning about why God is important to Christians. We are starting to learn about the story of the Pentecost. We have drawn pictures and written sentences to show our new learning.

## Design and Technology

To start our new topic we have been learning about where our food comes from. Our activity this week was to sort foods in two groups; food from animals and food from plants.

## Science

We are finishing off our seasonal changes topic by reviewing our predictions we made at the start of the Spring term to see if we were right! We have also started our new topic 'animal parts' by answering the question 'What is an animal?'.

## P.E

As part of our P.E this week we completed a cross country race. It was fantastic to see all the effort the children put in. Well done Chestnuts.

## Reminders

Home learning is handed out on Friday's. Please remember to make sure your child places their homework book in the homework box in class by Wednesday each week to make sure we have time to look at the amazing learning that takes place at home.

Our P.E days are still Wednesdays and Fridays. Please ensure your child has their PE kit in school at all times as our sessions may change from time to time.
