

Chestnut Newsletter - Friday 4th April

Here we are at the end of a busy term! Lovely to meet you all last week at parents' consultations. The children have worked so hard this half term and I am encouraged by their progress, resilience and creativity. Just a reminder to ensure that your child has a water bottle in School.

English

We have completed our unit 'The Lighthouse Keeper's lunch. After Easter we will be turning our attention to poetry. Later in the term we will look at The Day the Crayons quit.

Maths

Year 1 are just finishing a unit on multiplication and division. We are moving on to fractions and looking at halves and quarters.

Year 2 are finishing their multiplication and division unit and we are then moving on to length and height, then mass.

DT - Beach huts

The children loved making their beach huts in school. Here are just a few examples. They reviewed them and thought about what went well and what they would change.

The Dome

It was very exciting when the children had a visit and went into the hall to learn more about animals and how they adapt to different environments. Crawling into the dome itself was also very exciting!!

Thank you for your continuing support with hearing your child read regularly and completing their home learning. There will be no home learning over the break but we will be giving them reading books. Have a lovely Easter break Mrs Pape
